

Partner Services

HP Systems Insight Manager (SIM) Packaged Demonstration

DESCRIPTION

A Partner Services consultant will demonstrate a typical SIM environment consisting of an Insight Manager Server monitoring the network and demonstrating ways to deploy agents and retrieve Server information

DELIVERABLES

Demonstration of the following:

- Overview of Systems Insight Manager
- Overview of Performance Management Pack (PMP)
- Overview of Version Control Repository Manager
- Overview of Server Migration Pack (SMP)
- Demonstration of Virtual Machine Management (VMM)
- Discovery of Servers
- Deployment of Drivers
- Overview of Remote Software Support

CUSTOMER BENEFITS

The customer will benefit from the technical experience and expertise in a guided demonstration.

The customer will have confidence they can proceed with the product evaluation with the knowledge gained from the demonstration

The customer will benefit from a full interactive session with the ability to 'have a go themselves' if desired.

The customer will save time and future discrepancies that may otherwise occur from an unguided, literature based product brief.

ENVIRONMENT

The SIM demonstration will consist of:

- A SIM Server available on a Blade Server
- Virtual Machines & Blade Servers as monitored hosts
- Windows & ESX Hosts
