

Partner Services

HP OpenView Storage Mirroring Packaged Demonstration

DESCRIPTION

A Partner Services consultant will demonstrate a typical HP OpenView Operations for Windows (OVOW) environment consisting of both local and remote agent managed Windows servers.

DELIVERABLES

Demonstration of the following:

- Overview of the Agent – Management Server relationship
- Overview of the HP OpenView OVOW graphical user interface
- Policy Types, Management and Deployment
- Tools
- Reporting and Graphing features
- Service Views
- User Roles and restricting access
- Overview of Smart Plug-In (SPI) offerings (AD, Exchange, Databases)

CUSTOMER BENEFITS

The customer will benefit from the technical experience and expertise in a guided demonstration

The customer will have confidence they can proceed with the product evaluation with the knowledge gained from the demonstration

The customer will benefit from a full interactive session with the ability to 'have a go themselves' if desired

The customer will save time and future discrepancies that may otherwise occur from an unguided, literature based product brief

ENVIRONMENT

The OpenView Storage Mirroring demonstration will consist of:

- All demonstration servers will be installed with MS Windows 2003
- Using HP p-Class Blades
- Two MS Windows 2003 servers with OVOW agents installed
- An MS Windows XP client machine to provide application GUI access
