

# Partner Services

## Symantec Backup Exec 11d Packaged Demonstration

### DESCRIPTION

A Partner Services consultant will demonstrate a typical Symantec Backup Exec environment consisting of standard files, MS Exchange database\mailboxes and MS SQL databases.

### DELIVERABLES

Demonstration of the following:

- Overview of Backup Exec Graphical User Interface
- Configuration of storage devices for use within Backup Exec
- Creation of a backup job using selection lists and policies
- Protection of MS SQL and MS Exchange data
- Setting backup schedules
- Tape rotation and retention periods
- Disk staging
- Restoring data (Standard files, MS SQL and MS Exchange)
- Backup Exec Central Administration Server Option (CASO)
- Alerting and Reporting using MS Exchange

### CUSTOMER BENEFITS

The customer will benefit from the technical experience and expertise in a guided demonstration

The customer will have confidence they can proceed with the product evaluation with the knowledge gained from the demonstration

The customer will benefit from a full interactive session with the ability to 'have a go themselves' if desired

The customer will save time and future discrepancies that may otherwise occur from an unguided, literature based product brief

### ENVIRONMENT

The Backup Exec demonstration will consist of:

- All demonstration servers will be installed with MS Windows 2003
- Using HP p-Class Blades and HP ProLiant DL servers
- Fibre attached to HP SAN
- Backup Exec CASO server with a single Managed Server
- Fibre connected shared LTO tape library
- Disk staging to an HP EVA storage array
- MS Windows 2003 Network file server Client
- MS Exchange 2003 Network Client
- MS SQL 2000 Network Client
