

Partner Services

Symantec Enterprise Vault 7.0 Packaged Demonstration

DESCRIPTION

A Partner Services consultant will demonstrate a typical Symantec Enterprise Vault 7.0 environment consisting of standard file servers and MS Exchange mailboxes as archiving targets.

DELIVERABLES

Demonstration of the following:

- An overview of Enterprise Vault options available
- An overview of the Enterprise Vault installation pre-requisites
- Overview of the Enterprise Vault graphical user interface
- How to create and enable exchange and file system archiving targets
- Enterprise Vault archiving policies
- The user experience when an item has been archived
- Setting up archiving schedules

CUSTOMER BENEFITS

- The customer will benefit from the technical experience and expertise in a guided demonstration
- The customer will benefit from a full interactive session with the ability to 'have a go themselves' if desired
- The customer will save time and future discrepancies that may otherwise occur from an unguided, literature based product brief

ENVIRONMENT

The Enterprise Vault demonstration will consist of:

- All demonstration servers will be installed with MS Windows 2003
- Using HP p series Blades and HP Proliant DL servers
- Single Enterprise Vault 7.0 server
- MS Windows 2003 Network file server archiving target
- MS Exchange 2003 server archiving target
- MS SQL 2000 server
